About

HANSOR GROUP

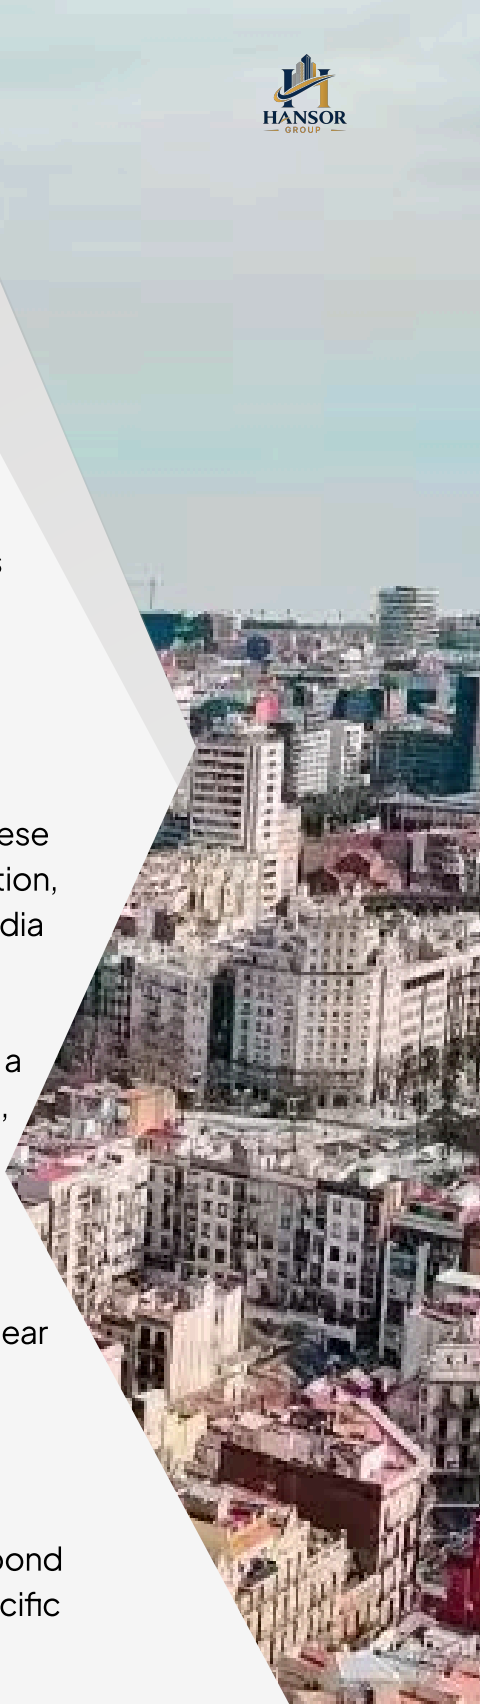

Hansor Group brings together specialized businesses under one integrated corporate platform, enabling each company to maintain its sector expertise while benefiting from the strength, resources, relationships, and strategic direction of the wider Group.

Our portfolio spans sectors that are fundamental to economic development, institutional growth, technological advancement, food security, supply-chain development, and creative communication. These include construction and real estate, infrastructure, digital transformation, consultancy, procurement and supply, logistics, agribusiness, and media and film.

Through this diversified structure, Hansor Group is positioned to serve a broad range of clients and partners, including government institutions, development organizations, international agencies, NGOs, private companies, investors, contractors, suppliers, creative partners, and communities.

The Group's structure allows specialized businesses to operate with clear sector identities while creating opportunities for collaboration across companies.

We believe that diversification creates resilience, while specialization creates excellence. By bringing both together, Hansor Group can respond to complex requirements with practical, coordinated, and sector-specific solutions.

Our Vision

Powering Multi-Sector Excellence

To be a leading diversified organization recognized for powering sustainable growth and fostering strategic partnerships.

Hansor Group aspires to build a professionally managed and forward-looking organization whose businesses contribute to sustainable economic development, create lasting value, and establish trusted relationships across the markets and sectors in which we operate.

Our vision reflects our ambition to grow not simply through expansion, but through stronger capabilities, responsible business practices, strategic partnerships, innovation, and meaningful long-term contribution.

Our Mission

Delivering Practical Solutions. Creating Value.

To deliver practical solutions and value across multiple sectors, building progress through innovation, integrity, and collaboration.

- *Professional project delivery*
- *Technical expertise and sector specialization*
- *Innovation and technology*
- *Responsible business practices*
- *Strong client and partner relationships*
- *Regional market knowledge*
- *International standards and professional practices*
- *Continuous improvement*
- *Efficient resource management*
- *Strategic collaboration*
- *Long-term value creation*

Our

CORE VALUES

01

PEOPLE

Our people are the foundation of our organization. We value professionalism, leadership, teamwork, knowledge, integrity, and continuous development.

We seek to create an environment where capable people can contribute, develop their expertise, take responsibility, and work together toward shared objectives.

02

PROJECTS

Our reputation is ultimately defined by what we deliver. We approach projects with discipline, accountability, quality, safety, creativity, and attention to detail.

Whether the assignment involves construction, technology, procurement, agriculture, or creative production, we believe successful delivery requires clear objectives and professional execution.

03

PARTNERSHIP

We believe sustainable growth is built through trusted relationships.

We work with governments, institutions, clients, suppliers, investors, development partners, technology organizations, creative professionals, and strategic partners to create shared value and long-term opportunities.

04

PROGRESS

We continuously seek better ways of working.

Innovation, technology, learning, creativity, and improvement help us respond to changing markets, emerging opportunities, and evolving client needs.

Stories That Inspire

01 SIDRA CONSTRUCTION COMPANY

Build Today for a Better Tomorrow

Sidra Construction Company is Hansor Group's construction and real-estate platform, providing capabilities across construction, civil engineering, architectural design, project management, consultancy, renovation, rehabilitation, interior works, and real-estate development.

Sidra combines technical capability with practical project delivery to support residential, commercial, institutional, and development-oriented projects.

CORE CAPABILITIES

- **Construction & Civil Engineering**
- **Architectural Design & Planning**
- **Project Management & Consultancy**
- **Renovation & Rehabilitation**
- **Interior Design & Fit-Out**
- **Real Estate Development**

SELECTED PROJECTS

- Forest Hill Towers
- Ex-Control Balcad Villa
- Birul-Waalideyn Education Center
- Haybe Tower Apartment
- Xamar Jajab

02 GANAANO CONSTRUCTION COMPANY (GCC)

Infrastructure for a Stronger Future

Established in 2017, Ganaano Construction Company is a construction and field-delivery platform operating across Somalia and Somaliland.

Ganaano combines infrastructure development with procurement, transportation, trade, and logistics capabilities, enabling the company to support projects that require both technical implementation and reliable field supply.

The company works with a broad range of institutional and development-oriented clients, including UN agencies, international NGOs, NGOs, World Bank and African Development Bank-related programmes, government institutions, and private-sector clients.

Its integrated model allows construction and infrastructure requirements to be supported by procurement, transportation, supply-chain, and logistics capabilities.

GANAANO SERVICES

Construction Management

Ganaano provides construction management and implementation support for infrastructure and building projects, with attention to planning, coordination, quality, safety, resources, and delivery requirements.

Civil Engineering

- Roads
- Buildings
- Water infrastructure
- Irrigation systems
- Rehabilitation and infrastructure improvement

Design & Build

The company supports integrated design-and-build assignments, coordinating technical requirements with construction implementation to provide practical project delivery.

Procurement & Supply

Ganaano supports institutional and project requirements through procurement and supply of construction materials, equipment, operational items, and other required goods.

Transportation & Logistics

The company provides transportation and logistics support to move materials, equipment, and supplies to project locations, including challenging and remote operating environments.

Water Infrastructure

- Water tanks
- Berkads
- Water channels
- Water catchments
- Solar-powered wells
- Elevated water tanks
- Related water facilities

Trade, Shipping & Forwarding

Ganaano also supports trade, shipping, forwarding, clearance, and delivery requirements, connecting procurement and supply activities with transportation and final delivery.

GANAANO SELECTED PROJECT EXPERIENCE

1. River Embankment Rehabilitation — Beledwayne
Rehabilitation of river embankment infrastructure supporting protection, resilience, and improved management of water-related risks.

2. Water Catchments — Salahley
Development of water catchment facilities designed to support access to and management of water resources.

3. Fodder Storage Facilities — Puntland
Construction and development of facilities supporting livestock feed storage and improved agricultural and livestock value chains.

4. Livestock Markets — Somaliland
Development of livestock market facilities supporting trade, livestock movement, and market access.

5. Emergency Latrines — Baidoa

Construction of emergency sanitation facilities supporting displaced and vulnerable communities.

6. Solar-Powered Wells — Puntland & Hirshabelle

Implementation of solar-powered water infrastructure designed to improve reliable access to water.

7. Elevated Water Tanks & Berkads

Development of water storage infrastructure supporting communities and operational requirements.

8. School Classrooms — Burco

Construction of classroom facilities supporting education infrastructure and community development.

WHY GANAANO?

Proven Institutional Partner

The company works with UN agencies, INGOs, NGOs, government institutions, development-oriented organizations, and private-sector clients.

Construction & Civil Engineering Capability

Its technical capabilities cover construction, civil engineering, water infrastructure, buildings, roads, rehabilitation, and related works.

Integrated Procurement & Logistics

Ganaano combines construction delivery with procurement, transportation, trade, forwarding, and logistics, helping clients coordinate multiple project requirements through an integrated delivery model.

Quality & Safety

The company places emphasis on quality control, safety, professional project management, and compliance with applicable standards and project requirements.

Regional Delivery Capacity

Its operational presence across Somalia and Somaliland supports delivery in diverse environments and locations.

03 HENKAN SOLUTIONS INTERNATIONAL

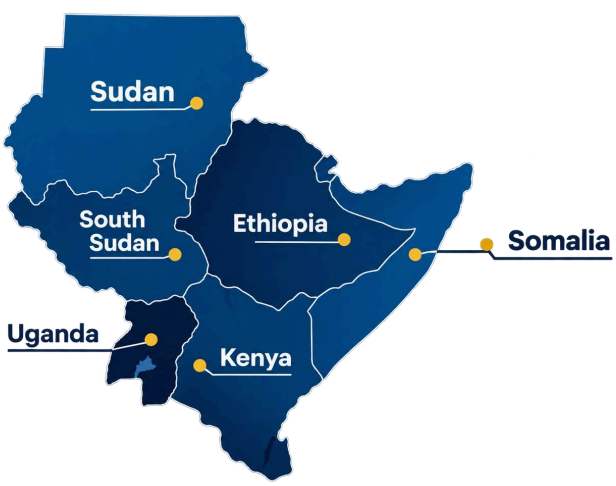

Digital Transformation • Development • Technology • Data

Henkan Solutions International (HSI) is a multidisciplinary consultancy operating at the intersection of digital transformation, socio-economic development, policy, governance, technology, knowledge management, and data analytics.

Founded in 2017, HSI works with governments, development organizations, international agencies, and the private sector across East Africa and the Horn of Africa.

The 2026 profile identifies clients and partners including IDLO, ACF, CARE, DRC, Islamic Relief, and Mercy Corps.

04 PRIME GENERAL SUPPLIES & SERVICES COMPANY

Your Supply Partner for Progress

General Trading • Construction & Works • WASH Infrastructure • Logistics

Prime General Supplies and Services Company is Hansor Group's general trading, supply, construction, WASH infrastructure, and logistics platform.

Founded as a family business in 2015, Prime is based in Kismayo, Somalia, and has grown into a works contractor and supplier serving humanitarian, institutional, and private-sector clients across Jubaland and beyond. Its documented portfolio demonstrates experience in supplying goods, delivering construction works, implementing WASH infrastructure, and providing transportation and logistics services.

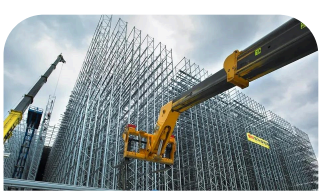

$453K+	16+	10	2015
Contract Value Delivered	Completed Contracts	Partner Organizations	Founded Family Business

PRIME SERVICES

General Trading & Supply

Prime supplies office furniture, non-food items, hygiene kits, equipment, and institutional goods in accordance with client and donor requirements.

Construction & Works

The company delivers construction works including classrooms, latrines, shelters, reservoirs, and institutional buildings.

WASH & Water Infrastructure

Prime provides shallow wells, boreholes, solar-powered pumps, sanitation facilities, and related water and WASH infrastructure.

Logistics & Transportation

Services include vehicle rental, food and cargo transportation, and project monitoring and evaluation support.

PRIME DELIVERY CAPABILITY

- Primary school rehabilitation in Dhobley
- Food transportation in Gobweyn
- Institutional construction works in Balcad
- Shallow-well rehabilitation in Kismayo
- Solar-powered shallow-well installation in Barka Village
- Latrine construction in Kismayo
- Flood-protected latrines and solar lighting in Dhobley IDP sites
- Vehicle rental and M&E support in Dhobley
- School DRR and hygiene kits for Kismayo schools

PRIME OPERATIONAL STRENGTH

Prime's Kismayo base provides direct operational reach across **Jubaland, Gedo, Bay Region, and Banadir,** including support for hard-to-access locations.

The company also emphasizes documentation discipline, with project deliveries supported by signed purchase orders, delivery documentation, and donor-standard reporting. Its long-standing relationships with local authorities, suppliers, and communities further support field-level implementation.

Through Prime, Hansor Group strengthens its ability to provide reliable supply, construction, WASH, and logistics solutions, particularly for humanitarian, institutional, development, and field-based requirements.

05 DAMAL AGRIBUSINESS LTD

Growing Agriculture. Building Food Security.

Damal Agribusiness Ltd represents Hansor Group's agribusiness platform, bringing the Group's capabilities into agriculture, food security, agricultural value chains, and related economic opportunities.

The company's positioning within Hansor Group reflects the importance of agriculture as a foundation for livelihoods, food security, market development, employment, and sustainable economic growth.

Damal provides the Group with a dedicated platform for exploring and developing opportunities across agricultural production and agribusiness value chains.

STRATEGIC AREAS

Our

QUALITY, RISK & PROFESSIONAL STANDARDS

Hansor Group recognizes that professional delivery requires more than technical capability. It requires systems that support quality, safety, accountability, creativity, and risk management.

QUALITY

We emphasize appropriate planning, technical competence, quality control, effective procurement, clear communication, and continuous improvement.

RISK MANAGEMENT

Project, operational, supply-chain, financial, implementation, environmental, and reputational risks are considered according to the requirements and context of each assignment.

PROFESSIONAL STANDARDS

Our companies apply relevant technical, safety, quality, regulatory, creative, and professional standards appropriate to the sector and project requirements.

ACCOUNTABILITY

Clear responsibilities, documentation, communication, monitoring, and performance management support transparent project execution.

Our

SUSTAINABILITY & SOCIAL VALUE

Hansor Group seeks to balance commercial growth with responsible business practices and meaningful social and economic value.

Our areas of focus include:

Economic Value

Supporting businesses, markets, employment, investment, entrepreneurship, and economic activity.

Social Value

Contributing to infrastructure, education, essential services, livelihoods, food security, community development, and communication through relevant projects and initiatives.

Responsible Resource Use

Promoting efficient use of materials, resources, technology, and operational capacity.

Digital Inclusion

Supporting access to technology, digital capabilities, institutional systems, and knowledge.

Agricultural Development

Through Damal Agribusiness Ltd, supporting agricultural and agribusiness opportunities that contribute to food security, livelihoods, and market development.

Creative & Cultural Value

Through Udub Films, supporting storytelling, communication, documentation, and creative expression.

Institutional Capacity

Through HSI and other Group capabilities, supporting organizations to strengthen systems, knowledge, technology, and long-term capacity.

Our

REGIONAL PRESENCE

Hansor Group has a strong connection to Somalia and the wider East Africa and Horn of Africa region.

SOMALIA

Construction, infrastructure, development, technology, procurement, supply, logistics, agribusiness, and field delivery.

SOMALILAND

Construction, procurement, trade, supply, infrastructure, and logistics.

WIDER EAST AFRICA & HORN OF AFRICA

Through HSI, the Group has access to capabilities and experience across:

- Kenya
- Somalia
- Ethiopia
- Sudan
- South Sudan
- Uganda

Prime further strengthens the Group's field-delivery footprint through its established base in Kismayo and operational reach across Jubaland, Gedo, Bay Region, and Banadir.
This regional perspective combines local understanding with technical expertise and access to wider professional networks.

HANSOR

PARTNERSHIPS & STRATEGIC OPPORTUNITIES

Hansor Group welcomes strategic relationships with organizations that share a commitment to practical solutions, sustainable growth, innovation, and long-term value creation.

We are open to collaboration with:

- Government institutions
- International organizations
- UN agencies
- Development partners
- NGOs and INGOs
- Private-sector companies
- Investors
- Technology partners
- Suppliers
- Contractors
- Financial institutions
- Agricultural and agribusiness partners
- Media and creative organizations
- Joint-venture partners

POTENTIAL COLLABORATION AREAS

WHY HANSOR GROUP?

Diversified Capabilities

Six specialized companies provide a broad platform for responding to different client, institutional, commercial, development, and market requirements.

Technical Expertise

Our companies bring sector-specific capabilities across construction, infrastructure, technology, procurement, logistics, agribusiness, food security, media, and creative production.

Regional Understanding

Experience and operating capabilities across Somalia and the wider East Africa and Horn of Africa region provide important contextual knowledge.

Integrated Delivery

The Group can combine construction, procurement, logistics, technology, consultancy, agriculture, agribusiness, media, WASH, and other capabilities when a project requires multidisciplinary support.

Proven Field Delivery

The Group's operating companies include documented experience delivering projects for humanitarian, development, institutional, and private-sector organizations. Prime alone records 16 completed contracts and 10 partner organizations since 2015.

Partnership Driven

We believe strong relationships are fundamental to sustainable growth and successful project delivery.

FUTURE DIRECTION

STRENGTHEN

Continue strengthening the capabilities, systems, people, and professional standards of each Group company.

EXPAND

Develop new markets, services, partnerships, and investment opportunities across Somalia, East Africa, and selected international markets.

INTEGRATE

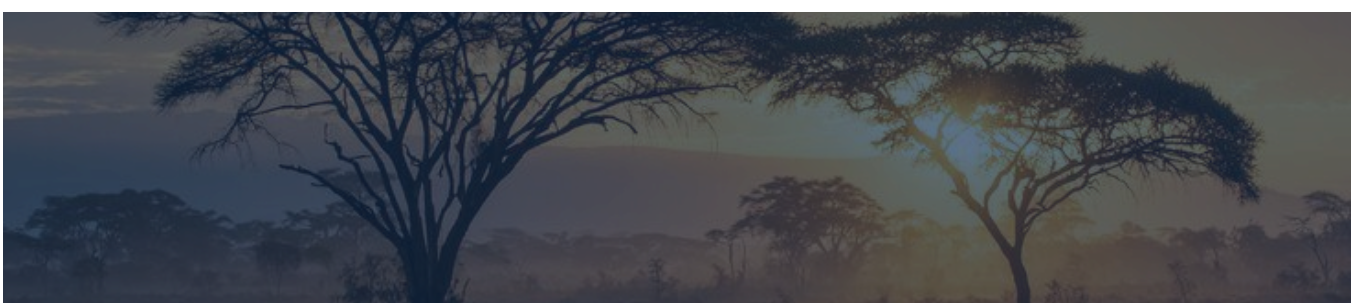

Create greater collaboration between Group companies to deliver multidisciplinary solutions.

INNOVATE

Use technology, data, new business models, creative solutions, and improved processes to increase efficiency and competitiveness.

PARTNER

Build strategic relationships with governments, development institutions, investors, technology companies, agricultural partners, creative organizations, suppliers, and other organizations.

OUR COMMITMENT

Hansor Group is committed to building a diversified organization that combines commercial ambition with professional responsibility.

We will continue to invest in people, strengthen partnerships, develop specialized capabilities, improve operational standards, embrace innovation, and pursue opportunities that contribute to sustainable economic and social value.

More capable.
More connected.
More innovative.
More valuable.
More impactful.

HANSOR
GROUP
POWERING MULTI - SECTOR EXCELLENCE

People. Projects. Partnership. Progress.

From construction and infrastructure to digital transformation, procurement, logistics, agriculture, and livestock, our companies provide specialized capabilities while benefiting from the strength of a unified Group.

We believe the future belongs to organizations that can combine technical excellence with local understanding, innovation with practical delivery, and commercial growth with responsible impact.

Creating Practical Solutions. Building Lasting Value.
